

The Inher River

Major dividing river creating a natural boundary between the Fleur and the Hongsu. The river is known for being very wide but not particularly fast or difficult to cross. It fees into a lake system to the East and flows into the major lake (?????) to the South.

There is a major crossing point between the two citadels of Sisteron and Hwando. A neutral city sits on the river between them offering a space of no government oversight.

Revision #1
